

## Technical characteristics

**Length: 10 feet (3.05mts) or 20 feet (6.10mts) upon request.**

- Correct coating thickness.
- Correct diameter.
- Pipes threaded at both ends.
- Includes coupling at one end.
- Precise circular section.
- Uniform wall thickness.
- Inner surface free from defects harmful to conductors.
- Higher thickness hot dip galvanized.

WEIGHT		ESPESOR	WEIGHT
